SWRCB-EPA Coordination Meeting

June 14, 2013

1. EPA will provide the SWRCB with a description of the EPA resources devoted to Bay Delta water quality matters, and will follow-up to explore opportunities for substantive collaboration around the formulation of the Bay Delta WQCP.
2. A conference call will be set up to discuss the SWRCB's plans to ensure that the frequency of inspections of Major and Minor Individual Permittees will meet the expectations of Section E. 1. of the CWA Section 106 Grant Work Plan.
3. EPA will provide the SWRCB with a summary of outstanding concerns with the use of work products prepared by the in-kind service contractor for NPDES Permit Development.
4. EPA will provide the SWRCB with the template used for federally-issued NPDES permits.
5. The SWRCB will attempt to expedite the Attorney General's submittal of California's CROMERR application to EPA-HQ.
6. The SWRCB will provide a written summary to EPA of the new proposed approach for submittal of integrated 303d/305b reports.

7. EPA will provide more detail to the SWRCB on delays to Department of Fish and Wildlife tasks under the 5-year Wetlands Program Plan (e.g., state-wide basemap), to support potential discussion at an upcoming California Water Quality Monitoring Council meeting.
